## Implant Complications .....Yeah -That Never Happens

*Dr. Arne Hoffmann's early experiences as a CDT in Germany, residency in periodontics, practice as a perio-prosthodontist, his former position as Clinical Director for NDX/Perry & Young, as well as his current focus on implantology and complex treatments as Clinical Support Specialist for Mountain Oral Surgery and Dental Implant Center; make him the perfect expert for this series. He proves invaluable to our office and patients when facilitating these types of cases for our referring doctors.*

Presented by ARNE HOFFMANN, PhD (Germany), DDS(Germany), CDT (Germany/US), CDA (US), Clinical Support Specialist

Co-sponsored by Dr. Cory Ryan, DDS, MD and Nobel Biocare

Course Dates	Time	Location	Tuition	CE
February 12th	Dinner & Registration	Mountain Oral Surgery	Complimentary	3 per session
or	5:30 p.m.	7991 Vance Drive		
March 11th	Presentation 6 – 9PM	Arvada, CO 80003		

### Course summary

We will begin our Winter CE series with a presentation by Dr Arne Hoffmann. Dr. Hoffmann will share from his extensive clinical and restorative experience and pull from the cases of others like Dr. Ken Parrish, Dr. Steve Parel and more to illustrate what we encounter beyond the textbook, the seen and unseen, how to recognize and troubleshoot through prevention and cures.

Complications we will be addressing are:

Biological  
Inter-Operative  
Aesthetic and  
Prosthetic

We'll look at those issues related to osseointegration and candidacy of a patient to implant positioning and the effects that has on how a restoration can be delivered. Finally, restorative design and what literally makes or breaks your restoration.

### Attendees will receive:

- Nobel Biocare literature and materials
- Dinner will be provided
- 3 CE credits

### Registration

Please register for this course by contacting Sherri at Mountain Oral Surgery and Dental Implant Center.
